Comparing scores directly might not be fair due to potential differences in question complexity among shifts. Normalization resolves this issue by equalizing scores, ensuring a more equitable evaluation of candidates.

Additionally, in 2019, SSC introduced a formula detailed in Notice No. 1-1/2018-P&P-I dated 07-02-2019, which is applied in the normalization of marks. These normalized scores significantly impact the determination of the final merit list and cut-off marks.
